SENTINEL
KALUMBILA

Candidate Pack

Head Teacher, Sentinel Kalumbila

For September 2026 (preferably) or January 2027

Dear Candidate,

We are pleased to provide you with detailed information about the Head Teacher position at Sentinel Kalumbila School.

Located in Kalumbila, North-Western Province, Sentinel Kalumbila was established in September 2014 to meet the educational needs of the local mining community and broader Kalumbila area. Initially commissioned and supported by First Quantum Minerals, the school is fast approaching sustainability as an independent institution.

Upon completing their primary education at Sentinel Kalumbila, most students continue to Sentinel Kabitaka Secondary School, joining graduates from our sister primary school, Sentinel Kabitaka. All Sentinel schools deliver a distinctive blend of the Cambridge International Curriculum and Zambia's national curriculum, preparing students for public examinations in Year 7 (ECZ) and Year 12 (IGCSE).

As proud members of both ISASA (Independent Schools of Southern Africa) and ISAZ (International Schools Association of Zambia), we maintain active collaborative relationships with schools throughout the region, enriching our educational offerings and professional development opportunities.

Andrew Whittall

CEO Educore Services

1. Introduction to Educore Services

1.1 Overview

Educore was formed in 2013, with the vision of creating a generation of engaged, enlightened and empowered learners and teachers. Our mission is to provide quality education through all our family of schools, institutions and programmes. We are dedicated to nurturing the potential of each student and fostering a culture of academic excellence, holistic development, and global citizenship. Through high quality teaching, community engagement and curated learning environments, we aim to empower our people to have a positive impact on the people and places around them.

The Educore group currently comprises eight schools and a teacher training academy, situated across Solwezi, Kalumbila Town, and Lusaka. The schools interact very regularly, and the staff and leaders work together, with a focus on collective excellence and the intention to improve educational standards not just within our own schools, but across the region.

1.2 Sentinel Schools

Vision: Empowering futures, enriching lives: Sentinel schools leading excellence in education.

Mission: Empower tomorrow's leaders to be self-reliant, responsible, innovative citizens who will add value to society by leading sustainable change and providing knowledge and skills for future development.

Education at all Educore schools, including the Sentinel group, is founded on our six pillars:

1. Academic Excellence
2. Co-Curricular Breadth and Depth
3. Pastoral Care
4. Social Responsibility
5. Teachers and Teaching
6. Sustainability

The Sentinel schools provide all-through education on three school sites, with Sentinel Kabitaka and Sentinel Kalumbila primary schools feeding Sentinel Kabitaka secondary. All three schools are fully coeducational.

While the primaries are both day schools, the secondary is blended boarding and day, with similar proportions of day to boarding scholars as at the College.

These schools offer outstanding education with an international feel to mainly Zambian students from across the country. Sentinel runs national exams (Grades 7 and 12) alongside IGCSEs, and A Levels are to be introduced in the coming year to align with the new (ZECF) Zambia Education Curriculum Framework. These schools also all enjoy beautiful campuses and good sporting and extracurricular facilities.

1.3 Trident Schools

Vision: Unlock the potential within each child, as we prepare them to take on the mantle of global citizenship in a dynamic and changing world.

Mission: Support students to develop critical thinking and problem-solving skills through meaningful interactions and a caring, child-centred education from teachers from around the world.

Trident College runs from year 7 to year 13 and is coeducational throughout. The school offers both boarding and day in all year groups, with usually around two thirds of the school population boarding.

The schools offer a blend of the Cambridge Primary curriculum in core subjects, enhanced by the IPC (International Primary Curriculum) at the prep schools, followed by IGCSE and Cambridge AS and A Levels. The curriculum reflects our pride in our diverse international cohort of students and staff and our Zambian context. The education offered deliberately channels the six pillars, with the aim of developing rounded individuals who live our values of responsibility, respect, reflection, integrity, and innovation.

The prep schools run from Nursery or pre-Nursery to year 6, also coeducational. The preps are day schools, although a small Year 6 boarding house is open for those students who require it at the College.

Each school is situated in beautiful grounds, with exceptional sporting and extracurricular facilities.

1.4 Frontier School

Vision: Empowering learners, igniting curiosity, achieving excellence.

Mission: Transforming lives by fostering growth and building character and skills to thrive in a dynamic world.

Frontier Nkisu school, based in Kalumbila, runs from Nursery to year 7. It was founded with the purpose of answering the significant need for outstanding education at a level affordable to the local community, giving parents who would otherwise have to fall back on the pressurised government schools a choice, and improving access to excellence through its low-cost private school model.

It is a coeducational day school which runs the national curriculum, enhanced in some areas with Cambridge and IPC and a focus on foundational skills in Literacy and Numeracy. We hope to expand this model into secondary and replicate in the future.

1.5 The Educore Academy

Vision: To enable outstanding educators to nurture and create a generation of engaged, enlightened and empowered trainees.

The Educore Academy was founded in 2014 as Zambia's first practice-based initial teacher training college. It trains a small cohort each year (25 participants this year) on a fully practice-based programme in all our Educore schools, partner schools from ISAZ and local government schools. Participants are outstanding graduates who undertake a fast-track one year Diploma fully embedded in schools, with the dual aim of getting excellent practitioners (who might not otherwise have considered teaching) into our classrooms, and of supporting the government in its drive to professionalise and improve the standard of teaching across the country.

The Academy is certified to offer CPDQs and CPD courses and receives generous funding from donors to support its programmes.

2. Information about Sentinel Kalumbila

2.1 The Six Pillars

The education we provide aims to support students to develop with self-discipline, self-esteem, intellectual endeavour, and a sense of adventure. We ask our students to act as adaptable young people who can perform in a team, while stepping up to lead one when called. Every day our students demonstrate the importance of these and their own personal values to us, and we are endlessly impressed by their community spirit and well-mannered outlook.

As mentioned above, a Sentinel education is founded on our six pillars. In practice, this looks like:

Academic Excellence

Our blended curriculum is designed to prepare our students to enter the global workplace, with the understanding and skills needed to add value to society and thrive both nationally and internationally.

Academic delivery is benchmarked against both the Examinations Council of Zambia and Cambridge Assessment International Education standards as students progress up the school. Students sit for ECZ examinations in Year 7; until the new Zambian Competence Based Curriculum takes effect in 2029, when they will complete primary education in Year 6.

Most continue onto Sentinel Kabitaka where they complete school with IGCSE examinations in Year 12. Sentinel Kabitaka is extremely proud of consistently strong academic performance across the school, and

our exam results consistently rank among the best in the country. Our recent IGCSE performance bears this out, with 1/3 of all grades being A* or A, and 86% of all grades at A* - C.

Co-Curricular Breadth and Depth

At Sentinel, we aim for balance across the curriculum, giving students opportunities to excel academically while also encouraging both mastery and breadth of experience in co-curricular activities. A wide range of activities are on offer; sports include football, athletics, hockey, rugby, basketball, netball and much more. Culturally, students are involved in drama, singing, chess, dance, and other clubs aimed at enrichment as well as community engagement.

Outdoor Education plays a meaningful role in our curriculum, with every Sentinel student participating in at least one camp a year. Our bespoke OE programme fosters leadership, critical thinking, and other vital skills as students progress through school. By the time students leave the Sentinel schools, they will have experienced various camps, ranging from camping on the school grounds in lower primary to the Adventurous Journey which forms an integral part of the Duke of Edinburgh award in secondary school.

Pastoral Care

Our primary goal is to ensure that every child in our care feels safe and happy. This commitment remains a cornerstone of school life, and we continuously strive to improve in this area. In class, pupils rely on their form tutors to be the first port of call in pastoral issues.

We are always mindful of our mission to develop self-reliance, responsibility, innovation in our students, and to ensure they leave our schools ready to add value to society. To achieve this, we emphasise the development of a strong sense of self, guided by our core **school values: integrity, reflection, responsibility, innovation, industry and respect**. Our parents and students identify strongly with these values, particularly responsibility and respect, and we always try to work together with the wider school community to achieve our mission.

Social Responsibility

At Sentinel, we aim for our alumni to leave school with a deep understanding of what it means to forge meaningful, mutually beneficial partnerships – especially with those who may have different backgrounds or experiences. Through practical experiences, our goal is to cultivate students who become valuable contributors to their communities and society at large.

During their time at Sentinel, students engage in service activities each year, many of which are increasingly student-led. We have established enduring partnerships with local schools, orphanages and civic organisations aimed at positively impacting the lives of our peers in the community. Our approach prioritises collaboration over donation, focusing on shared resources and capacity-building for mutual benefit.

This commitment to social responsibility includes:

- Organising Continuing Professional Development (CPD) sessions for community teachers.
- Hosting students from local schools to use facilities such as the ICT suite
- A reading partnership with a local primary school, where our students visit each month to listen to students read.
- A sports coaching programme in which our students introduce their peers from other schools to such games as rugby, basketball and rounders.

Through these initiatives, we aim to create a legacy of compassionate, community-oriented individuals.

Teachers and Teaching

A classroom at Sentinel should be a place of active learning, where students are able to think critically and deeply, and where the onus is on analysis and original thought over repetition of learnt facts or opinions. We expect teachers to be cognisant of global and national developments (for example, in AI and how it affects teaching & learning), and to apply intelligent rigour and continual reflection to their teaching by using student data and through collaboration with colleagues. We place significant emphasis on a growth mindset for staff as well as students and purposefully drive opportunities for internal and external CPD and ongoing training to ensure our staff are equipped to prepare their students for the paradigm shifts occurring globally. A recent student stakeholder survey showed that students particularly value the individualised attention they receive from our staff.

Sustainability

The long-term success of the Sentinel schools hinges on our comprehensive sustainability strategy. Our vision is to stay at the forefront of private education in Zambia for generations to come. Achieving this ambition requires a robust approach that combines strategic marketing, sound financial planning and discipline, and an adaptive embrace of the digital revolution.

The Head of School collaborates closely with the heads of key departments, the other Sentinel heads of Primary and Secondary, and the Executive Head of Sentinel to align efforts and support the school in achieving its ambitious goals. Together, they ensure that sustainability remains at the core of the school's operations and development.

2.2 Location

The North Western Province is a wild forested region hosting a number of rare bird species. **Kalumbila**, the purpose-built town in which the school is located, is one of the most meticulously planned settlements in Africa, with people and investment flooding in to support the mining activities taking place at the Sentinel Mine. We are in an interesting area of fast development and significant potential, and although this comes with inevitable challenges, the future of the region is bright. The town is vibrant and features a modern supermarket, shops, restaurants, and a recreational club. The safety and condition of the roads has improved dramatically over the last few years and Kalumbila is now well connected to Solwezi, the Copperbelt, and Lusaka. Daily flights run from the local airport to Lusaka and other domestic destinations.

The school grounds are extensive and beautiful, with staff housing close to the school site. Mature forest trees and ancient termite hills abound, and we protect and enjoy the beautiful flora and fauna that flourishes onsite. Our students appreciate the beauty and peace of their surroundings, and the grounds provide countless opportunities for learning both in and out of the classroom.

Classrooms, school facilities are modern and well maintained, as are the staff houses which enjoy mature gardens. Facilities continue to be developed as the school grows.

2.5 Student Numbers

We currently have 342 students at Sentinel Kalumbila, as shown in the breakdown below.

Year Group	January			February			March		
	M	F	TOT	M	F	TOT	M	F	TOT
Pre-Nursery	22	18	40	23	21	44	26	20	46
Nursery	19	19	38	18	19	37	18	20	38
Reception	23	16	39	28	17	45	23	17	40
Year 1	20	19	39	24	15	39	22	17	39
Year 2	21	15	36	18	16	34	20	16	36
Year 3	17	18	35	17	18	35	19	18	37
Year 4	16	18	34	16	18	34	18	18	36
Year 5	21	10	31	20	9	29	19	9	28
Year 6	8	12	20	8	12	20	9	12	21
Year 7	12	10	22	12	10	22	12	9	21
Total	179	155	334	184	155	339	186	156	342

2.6 Staffing

Staff at the Sentinel schools comprise locally trained teachers, administrators and auxilliary staff. It is an HR stipulation that all teaching staff be qualified up to degree level, but many further their qualifications to Masters level and beyond. CPD is an integral part of the school culture; we rely strongly on weekly internal INSETs, but also register staff on online courses as well as long and short term seminars, locally and abroad. CPD is collaborative and we draw from the expertise across our group of schools, encouraging teacher exchanges, lesson studies and other collaborative initiatives to ensure a continuous drive for

excellence in teaching and learning. The focus in all our staff development is always on how it will benefit the children in our school.

2.7 Affiliations

Sentinel Schools are part of the ISAZ (Independent Schools Association of Zambia) and ISASA (Independent Schools Association of Southern Africa) and registered as a Cambridge Assessment International Education (CAIE) school and an examination centre with both the Examinations Council of Zambia and the CAIE.

4. Application Process – Head Teacher Sentinel Kalumbila

Key dates

Closing Date:	30 th April 2026
Online interviews (MS Teams):	4 th – 15 th May 2026
Final interviews at Sentinel Kalumbila in Zambia:	20 th – 22 nd May 2026
Final decision, offer and negotiation completed:	End of May 2026

To apply please complete the [application form](#) here.

For an informal discussion please email either Andrew Whittall (CEO) or Dr Mthulisi Matshakaile (Executive Head Sentinel Schools) at headrecruitment@sentinel-kalumbila.com

References

We will need to collect full references before shortlist interviews, but if you have a specific preference that we do not contact one or more of your referees, please notify us of this. Please rest assured that no referees will be contacted until Educare has received your specific consent to do so. Shortlisted candidates will be asked to provide the names, job titles, email addresses and telephone numbers of three referees, including your current and past employers or line managers.

Qualifications, Identification, Health and Background Checks

Please note that you may be required to bring documentation to interview providing proof of your identity and qualifications. You may also be required, within the final appointment process, to undergo a health check and relevant background checks as part of the school's recruitment and safeguarding procedures.

Educare Services is committed to safeguarding and promoting the welfare of children and young people and expect all staff and volunteers to share this commitment. The successful candidate will be required to undergo relevant background checks.
